

Accessibility Enhancements at Festival of Trees

In an effort to make Kennedy Krieger Institute's Festival of Trees more accessible to the children and families we serve we have made the following changes to this year's event:

- 1) *We have added the **EasyGo accessible family restroom with adult-sized changing table**. This facility can be accessed to the right when you walk in SantaLand and behind the model train garden. Please look for signage or ask staff if you have trouble locating this facility.*
- 2) *We have a "**Calming Corral**" or sensory room. This is an area for individuals who need to take a break from all the sights and sounds of Festival of Trees. The entrance to the Calming Corral is located in the back of SantaLand between the pony rides and Wildlife Adventure.*
- 3) *We have a **wheelchair accessible carousel** so that everyone can enjoy the festival fun!*
- 4) *We have **priority seating areas for individuals with disabilities**. These areas will be located in the food court, arts & craft area, and the coloring & letter writing area.*

If you have any specific questions about these changes, please direct them to our representatives at the Information Booth located behind the large tree at the Festival of Trees Main Entrance.
